* Adobe Photoshop Elements In 2007, Adobe unveiled the first version of its digital photography-oriented Photoshop Elements editing package. Like Photoshop, Elements works in layers. Unlike Photoshop, it is a consumer-focused package. Photoshop CS6 Photoshop CS6 is the second version of Photoshop created by Adobe. Released in 2013, it includes a host of enhancements geared toward photography enthusiasts. In fact, it's the perfect tool for photographers new to editing. Icons Some of the icons included in Photoshop are also in Elements. Many are slightly different in that they are arranged in different locations. For example, the same brush has a different location in Elements than it does in Photoshop. However, the core concepts remain the same. For instance, when you click the Rectangular Marquee tool (the same tool used in both software packages), in both programs you will see the same icon. Color Selector In Photoshop CS6, you can select and manipulate any color in an image. You can change its hue, saturation, and brightness. You can even manually select colors in a photo using the Color Picker tool. You have to select that tool in order to change the color using it. Color Selection In Adobe Photoshop Elements, the Color Selector tool displays the same basic version of the Color Picker. However, it also contains the words Color Range, Color Wheel, and Color Tones (Image Variations), as shown in Figure 9-22. **Figure 9-22:** Elements offers additional tools to choose and work with colors. Line Illustrations Line illustrations are in both Elements and Photoshop. Free Transform The Free Transform tool makes it easy to move and rotate a selection of image or layers. Grow The Grow tool is similar to the Free Transform tool. Use it to resize an image or move the edge of a selection. Relocate The Relocate tool is similar to the Grow tool. Use it to move an object to a new location in an image. Move This tool is used to drag an object on the image and move it to a new location in the image. Rotate Use this tool to rotate an object on an image. Scale You use the Scale tool to alter the size of an object. Skew Use the Skew tool to distort an object in an image,

Serum levels of the neuropeptides orexin and galanin in health and in obesity. The neuropeptides, orexin and galanin, have recently been shown to modulate food intake and energy expenditure. We compared the serum levels of these hormones in obese patients with those in healthy controls matched for age and sex. Ten obese patients with a mean body mass index of 31.5 ± 3.0 kg/m² and ten control subjects, matched for age and sex, had their serum samples assayed for the presence of orexin and galanin using ELISA (enzyme-linked immunosorbent assay). Serum levels of orexin-A and orexin-B in the obese group were decreased compared with the control group (45.2 ± 15.8 pg/ml vs. 60.6 ± 9.0 pg/ml, $p=0.0448$ and 14.7 ± 4.2 pg/ml vs. 19.9 ± 4.5 pg/ml, $p=0.0628$, respectively). No difference was observed in the serum level of galanin between the two groups. These data suggest that the serum levels of orexin-A and orexin-B may change depending on the degree of obesity.

LATEST NEWS There's a reason why the cops ask you to have your cake... because they don't want you to try it without eating it (Picture: Cumbria Constabulary) A police officer has been forced to offer the sweet advice of 'have a light lunch' – instead of having a bite of cake – as they can't eat it. As a police department in the United States, Cumbria Constabulary take their cake very seriously. The 14-page regulations stipulate that if cake has been served to a team, they must each eat a piece – with none left over for later. While the seemingly bizarre rule was first set in place for 'affectionately' serving a piece of cake to colleagues, it has sparked an increasing sense of amusement. **MORE:** Police officers say no to fizzy water 'too loud' for morning meetings A police officer has been forced to offer the sweet advice of 'have a light lunch'...instead of trying a bite (Picture: Cumbria Constabulary)

GlobalMinx GlobalMinx was a British budget airline that operated from 1992 to 1994 as a subsidiary of British Caledonian. **History** The airline was set up by British Caledonian on 9 April 1992 as a joint venture with Canadian WestJet Airlines and began operations with two Britten-Norman Islander light single-engine turboprop aircraft based in Prestwick, Scotland. In October 1993, a third aircraft was ordered. In November 1993 the airline took the maiden flight of its third aircraft. The airline attempted to establish operations in the Czech Republic and Germany but were unsuccessful. In July 1994 the airline began operating from Liverpool John Lennon Airport under a code share agreement with British Caledonian and Regional Express. However the agreement proved to be commercially unviable and the airline closed at the end of July. The three aircraft were transferred to British Caledonian. **Services** In late 1994, the company was going to start scheduled passenger flights from Liverpool, Manchester and Newcastle. **Aircraft operated** Fatal accident of Britten Norman Islander in Latvia on 23 May 1994 **References** Category:Defunct airlines of the United Kingdom Category:Airlines established in 1992 Category:Airlines disestablished in 1994 Category:1992 establishments in the United Kingdom Category:1994 disestablishments in the United Kingdom{.26} {.27} {.28} {.29} {.30} {.31} {.32} {.33} {.34}
