Renowned photographers Alec Soth, Ed Kashi, Kristen Six and Ryan McGuire have used videos created with Adobe Premiere Pro and Adobe Story to transform their works. Several of these images -- including "Lantanai Rocks" and "Staircase" -- were shot using Canon EOS 5D Mark II and the EOS 7D and were also edited on the traditional desktop platform, Photoshop. With these images, Alec Soth worked with editors to craft a video story that weaves together dramatic vignettes of the landscapes -- together with their subjects -- and portraits. These views will be useful as they can show the viewers the best view of the models. **Innovative Chalk Brush.** Designers can make plans and send them via emails to clients. But the plan can just look like a framed picture and it is not a dynamic process. You need to change the whole plan from a image to a sketch and the best way to do so is by making a sketch.
